2" wide x 9" or 4.5" long straight or curved sections with a 22.5 degree curve.

HO track sizes available now. Soon to be available in all standard gauges and track sizes.

Custom radiuses and gauges available by special order.

HOW IT WORKS:

END VIEW

*SURE CURVE snugly snaps into place over your FLEX TRACK and shapes the curve section of track to the perfect radius EVERY TIME – NO GUESSWORK!!
Large holes allow you to spike or solder the track into place as you slide it along.*

- **LESS DERAILMENTS, NO JAMMING or BINDING** as your train moves around the track!
- Increase or decrease the radius for **EASIER TRANSITIONS!**
- **SURE CURVE** will form your FLEX TRACK to the perfect radius every time ... or help you to straighten a curved track **WITHOUT THE GUESSWORK!**
- **5 TOOLS IN ONE!** Soldering and staking holes, laying track, cutting track, and road bed pattern.
- SURE CURVE will align both ends of a splice perfectly. Get it right the first time!
- A **MUST HAVE** for the expert or novice model rail-roader. Once you've tried it, you'll never go back to the old way. Lay track like the pro's!
- **CNC MACHINED** for accuracy to the standard gauge tracks so you can be assured SURE CURVE will fit.
- Standard sections of 22.5 degrees. Make perfect circles by sliding the SURE CURVE along the FLEX TRACK.

You're on the right track with SURE CURVE
